years of leadership in professional education

# How to Earn the CFA® Certification?

---

Prepare for and pass all 3 CFA® exams in English.

Each exam lasts 6 hours

Passing all CFA® exams on the first attempt takes 2.5 to 3 years.

CFA® Examination Sessions:

- Level I - February, May, August, November
- Level II - May, August
- Level III - May, November

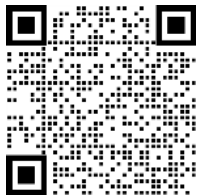

Exams are taken sequentially. There are no exemptions from exams. It is required to sign and adhere to the CFA® Code of Ethics.

Confirm 4 years of work experience in the finance sector, with at least 2 years in analytics/investments.

Candidate requirements: a bachelor's degree or enrollment as a 4th or 5th-year university student

More information about the qualification and exam structure can be found on the CFA® website.

## Our Solution: CFA® Exam Preparation Program

---

EY Academy of Business CFA® Program offers practical, up-to-date knowledge and skills, highly valued in fields such as capital markets, banking, corporate finance, asset management, insurance, and investment advisory. The program includes::

### 1. Interactive sessions with a business consultant

- In-depth study of complex theoretical aspects of the exam and discussion of all key topics included in the exam syllabus
- Practice with exam-style questions for each topic
- Introduction to the exam structure, examiner expectations, and exam-taking techniques
- Learning a proven strategy for exam success
- Tips for improving time management skills and building stress resilience

### 2. Independent study

During breaks between sessions and after the course:

- Memorizing key terms and definitions
- Reviewing and reinforcing theoretical concepts
- Practicing exam techniques by solving exam-style tests
