25+

years of leadership in professional education

Target audience

- ▶ Finance Directors / CFOs
- ▶ Analysts
- ▶ Portfolio Managers
- ▶ Investment Analysts
- ▶ Investment Bankers
- ▶ Other professionals in the financial services industry

Trainers

Preparation is conducted by a team of expert practitioners with deep theoretical knowledge, experience in conducting preparation programs for qualification exams, as well as international qualifications (CFA®, ACCA, etc.)

How to Obtain the CFA® Certification?

Prepare for and pass 3 exams in English.
The duration of the exams is 6 hours each.

Passing the exams on the first attempt will take 2.5-3 years.

CFA® Examination Sessions:

- Level I - February, May, August, November
- Level II - May, August
- Level III - May, November

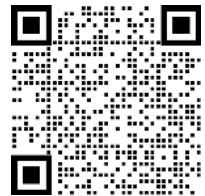

Exams are taken sequentially. There are no exemptions from exams. It is necessary to sign and adhere to the CFA® Code of Ethics.

Confirm 4 years of work experience in finance, 2 of which are in analytics/investments.

Candidate requirements: a bachelor's degree or a student in the 4th-5th year of university.

More information about the qualification and exam structure can be found on the CFA® website.

Our Solution: CFA® Exam Preparation Program

EY Academy of Business CFA® Program allows you to acquire relevant practical knowledge and skills, sought after for work in stock markets, banking, corporate finance, fund management, insurance, investment consulting, and includes:

1. Interactive sessions with a business consultant

- Thorough examination of complex theoretical aspects of the exam and discussion of all key points on topics covered in the exam
- Solving exam-style tests for each topic
- Familiarization with the exam structure and examiner requirements, exam-taking techniques
- Introduction to successful exam-taking strategy
- Recommendations for developing skillful time management and stress resilience

2. Independent work

During breaks between sessions and upon completion of training

- Memorization of key terms and definitions
- Review and reinforcement of theory
- Practice of exam-taking technique by solving exam-style tests
